Ege University Radiation Oncology Team***

Dear colleagues,

The science of Radiation Oncology is evolving rapidly. New developments in computer sciences and imaging, radiation science and molecular oncology provided unprecedented innovations in radiation oncology. We are pleased to invite you to the ***“International Online Eye Radiation Oncology Symposium”*** on 27th May, the topic of this year’s symposium is ***“Intelligent Perspectives in Radiation Oncology”***. The highlights of the symposium include artificial intelligence, biology-guided radiotherapy, MR-guided radiotherapy, gyroscopic radiosurgery, flash radiotherapy, surface-guided radiotherapy and proton therapy presented by a team of international distinguished experts. In the end, there will be a round table on the future of radiation oncology. Registration to symposium is free of charge, and will be broadcasted live on the web address: ***egeradonk2021.serenalive.com*** on 27th May 13:00-21:00 (GMT+3). Symposium will be recorded and will be available for future access as well.
